

Libraries can be educational hubs that promote International Compost Awareness Week (ICAW), an annual weeklong celebration aiming to increase the diversion of organics from the waste stream through awareness of and participation in composting. The Illinois Food Scrap & Composting Coalition (IFSCC) is organizing statewide events May 5-11, 2024. Join us!

ICAW is the largest and most comprehensive education initiative of the global compost community.

The IFSCC is a thriving not-for-profit organization advancing diversion and composting of all organics in Illinois through advocacy, program implementation, market and business development, policy, and outreach.
